**Subject:** Re: spoke with [Ex. 6 - Personal Privacy]

I think the issue is that she has never received them and wonders what is up - who to contact.

Karl,

Thanks for your help today. It is very much appreciated.

The best way would be for [Ex. 6 - Personal Privacy] to give us the PADEP and Cabot results, if she has them. We can check with PADEP and are generally sharing results between us, although no results have been actually shared yet. We are going to be sharing with PADEP beginning next week.

Sharing results between Cabot and EPA has not been set up for this yet.

thanks again!!

Rich

All,

I just got off the phone with [Ex. 6 - Personal Privacy] I think it went well and she feels better about the results. The take home message from me was "We have a 5 yr old at home and if these were my water results I wouldn't hesitate to use water for all household activities (bathing, drinking, cooking, ...).

We discussed chromium, trigger levels, "U" qualified data, nitrogen, bacteria, and PAH results. I told her I plan to meet with her next week to discuss further and look at the wellhead. I also told her I'm waiting for "approved" travel orders and EPA's resident meeting schedule to be finalized before setting a time with her. I promised I would make sure to meet with her after morning childcare duties and before school's out (probably between 9:00-2:30).

She also asked if I could check with DEP (and maybe Cabot) about the status of her results. Do you have any updates from DEP and/or contact information?

Sincerely,

Karl
